Professional Summary

Full-Stack Engineer with 2.5+ years of experience building backend services, REST APIs, and GenAI microservices in Node.js/TypeScript, Laravel, Python, and React/Next.js. Built a real-time Voice AI RAG agent over WebSockets, an in-memory caching layer with cache stampede protection, and Meta WhatsApp Cloud API and fintech KYC integrations (Aadhaar/PAN/Penny-Drop).

Technical Skills

Languages: TypeScript, JavaScript, PHP, Python, SQL (PostgreSQL, MySQL), HTML5, CSS3
Frameworks & Runtimes: Node.js, Express.js, Laravel, FastAPI, React.js (Redux), Next.js (App Router), Angular, TailwindCSS
Backend & Systems: In-Memory Caching (TTL, Request Coalescing/Stampede Protection), Redis, PostgreSQL, MySQL, MongoDB (Mongoose), Docker, Async Queues & Jobs, Microservices, Service Layer Architecture, N+1 Query Optimization
AI, Cloud & Integrations: Voice AI RAG, WebSockets, Deepgram Nova-3, DeepSeek, Google Gemini API, Meta WhatsApp Cloud API (v21.0), PDFKit Invoicing, Cashfree & PowerAPI (KYC), AWS S3, CI/CD (Vercel/Render), Stripe, Razorpay
Concepts & Tools: RESTful API Design, JWT Authentication, RBAC, Webhooks, Linux, Git, Postman, Vercel, Render

Work Experience

Software Development Engineer | Remedio Technologies, Kolkata *Dec 2025 – Present*
- Architected an end-to-end **Voice AI RAG agent** (WebSockets, Deepgram Nova-3 STT, DeepSeek autonomous tool calling, Edge-TTS) cutting lookup latency by **65%**; built a **FastAPI + Gemini** microservice integrated with Laravel/S3 for automated catalog visualization.
- Designed an in-memory caching engine with TTL, prefix invalidation, and **cache stampede protection** (inflight request coalescing); eliminated database N+1 query bottlenecks via batched fetching, cutting peak API latency by up to **70%**.
- Engineered an automated transactional billing pipeline with **PDFKit** multi-item tax/discount calculations and integrated **Meta WhatsApp Cloud API (v21.0)** with dynamic templates for instantaneous invoice and document delivery upon payment.
- Built a regulatory KYC onboarding engine integrating **PowerAPI** and **Cashfree** (Aadhaar OTP with masked PDF, PAN validation, Bank Penny-Drop); implemented cryptographically secure 6-digit OTP verification and enterprise **RBAC**.

Junior Software Development Engineer | Digital Aptech, Kolkata *Mar 2024 – Nov 2025*
- Developed and maintained 20+ production RESTful APIs in **Laravel** for an e-commerce logistics platform, implementing Service Layer Architecture and Eloquent ORM to decouple controller business logic and improve maintainability.
- Architected asynchronous background processing using **Laravel Queues, Jobs, and Redis**, scaling concurrent shipment ingestion capacity by **300%** and eliminating HTTP request timeout bottlenecks.
- Engineered custom WordPress and WooCommerce payment gateway integrations with **Razorpay and Stripe**, implementing webhook signature verification and idempotent order state transitions.

Featured Projects

Whistle | ***Laravel, PHP, React.js, REST API, Vite*** whistle-lunv.onrender.com
- Demo full-stack platform built for an interview assignment: orthodontic scan and consultation booking with automated clinic dispatch and lead capture.

Verbatim AI | ***Next.js 16, React 19, TypeScript, Tailwind CSS*** verbatim-ai-ten.vercel.app
- AI legal contract analysis engine using prompt constraints and confidence scoring to reduce hallucination; maps cited clauses to source passages across 150+ page PDF/DOCX contracts with interactive page jumping.

FactoryIQ | ***React.js, Node.js, Express, PostgreSQL, Docker*** camera-activity-frontend.vercel.app
- Containerized dashboard for AI-processed CCTV event feeds: stores events as time-series data in PostgreSQL via Knex.js and computes worker productivity metrics.

No-Yes Man | ***Next.js, React.js, Gemini 2.0, DeepSeek*** no-yesman.vercel.app
- 3-stage adversarial multi-agent LLM consensus pipeline where Gemini and DeepSeek debate, critique, and cross-examine assertions to eliminate single-model bias and generate publication-ready consensus.

Education

Bachelor of Science in Computer and IT Technology (B.Sc.) | City College, Kolkata *Mar 2019 – Dec 2022*
